AURORA QUICK-START SYSTEM BOOKLET

Pocket Operational Guide for Students, Research Advisers, Panelists, Coordinators, Deans & System Admins
Partido State University — College of Engineering and Computational Sciences
Research Adviser: Prof. Froiland B. Peñalosa | Capstone Coordinator: Dr. Kennedy C. Cuya

Module 1: Student Proponent Quick-Start

1. Sign In & Create Docket: Log in at https://aurora-parsu.vercel.app/login, open My Project, click Create Project, and share the 8-character Join Code with your groupmates.

2. Upload PDF Manuscript: Drag and drop your compiled PDF manuscript. AURORA automatically computes its FIPS 180-4 SHA-256 fingerprint and assigns version pointer v1/v2/v3.

3. File Form DCS-CF-03: Complete the Oral Defense Application prerequisite checklist (Turnitin similarity <= 20%) to route your manuscript to your Research Adviser.

4. Resolve Inline Annotations & View Verdicts: Open the Review Workspace to reply to coordinate-pinned comments and download your signed Certificate of Defense (DCS-CF-05).

Module 2: Research Adviser Guide (Prof. Froiland B. Peñalosa)

1. Advisee Queue: Open Dashboard or Submissions to view all assigned student capstone groups.

2. Split-Screen PDF.js Annotation: Select text or draw coordinate bounding boxes directly on the manuscript PDF, categorize severity (Critical, Major, Minor), and post remarks.

3. Endorsement Gate (Form DCS-CF-03): Click Approve & Endorse for Defense to digitally certify manuscript readiness and unlock defense scheduling.

Module 3: Defense Panel Evaluator Guide

1. Live Evaluation Workspace: Open your assigned defense from Defenses to launch the 60/40 split-screen PDF and Form DCS-CF-04 Rubric Drawer.

2. Dynamic Weighted Scoring: Input criterion scores across Manuscript Quality (30%), Prototype Demo (35%), Presentation (25%), and Q&A (10%).

3. RA 8792 Step-Up Digital Signature: Re-enter your account password to legally certify your signature, generating an immutable AURORA-YYYY-NNNNNN serial and SHA-256 hash.

Module 4: Defense Coordinator, College Dean & System Admin Guide

1. Conflict-Free Scheduling (/dashboard/defenses/schedule): Schedule single or batch defenses with automatic room-clash detection and Adviser Conflict-of-Interest isolation.

2. Customizable Workflows & Rubrics (/admin/stages & /admin/rubrics): Configure 4-stage (CEC) or 3-stage (other colleges) pipelines and dynamic 100%-weighted rubrics.

3. Executive Analytics & Objective 4 Survey (/dashboard/analytics): Monitor pass rates, turnaround KPIs, and live SUS (91.8/100) & UTAUT (4.86/5.00) acceptability metrics.

4. Maintenance, Troubleshooting & DR Console (/admin/system-health): Run 6 live diagnostic probes, trigger One-Click Self-Healing Maintenance, and export/verify SHA-256 JSON backups.
